- Mandate is child/youth protection on the internet
- No scientific research of radicalisation processes
- Presumption: Consumption of certain media content can potentially harm or impair development of minors
- Presumption: Risks of interaction online especially Social Media

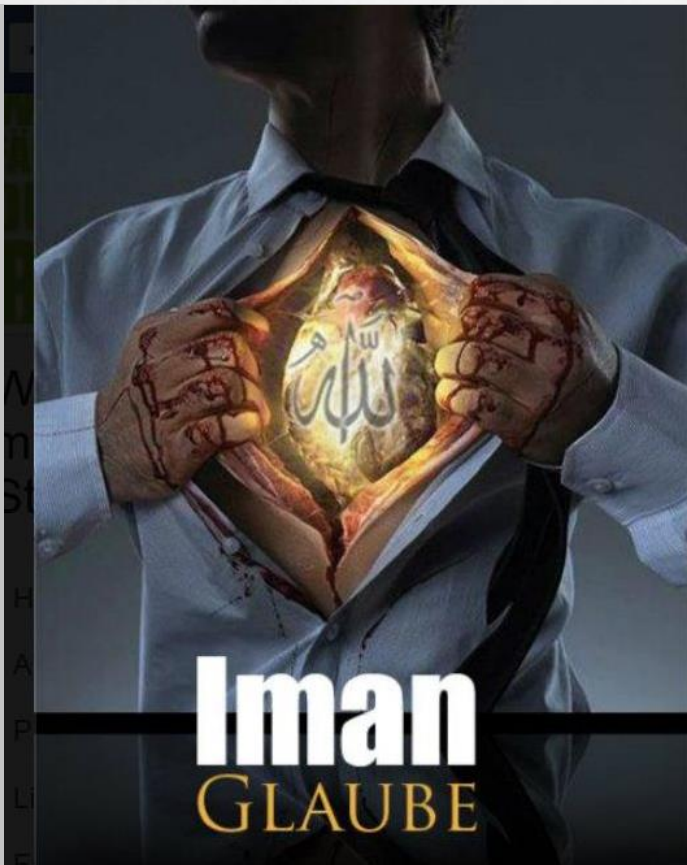

Islamist Extremism on the Internet

- Subunit monitors islamist propaganda
 - Since 2012
 - Financed by the government: Federal Ministry of Youth – program „Living Democracy“
- How do Islamists/Jihadis lure young people online?
- How do they adress the target-audiance of minors?
- Where do they adress the target-audiance of minors?

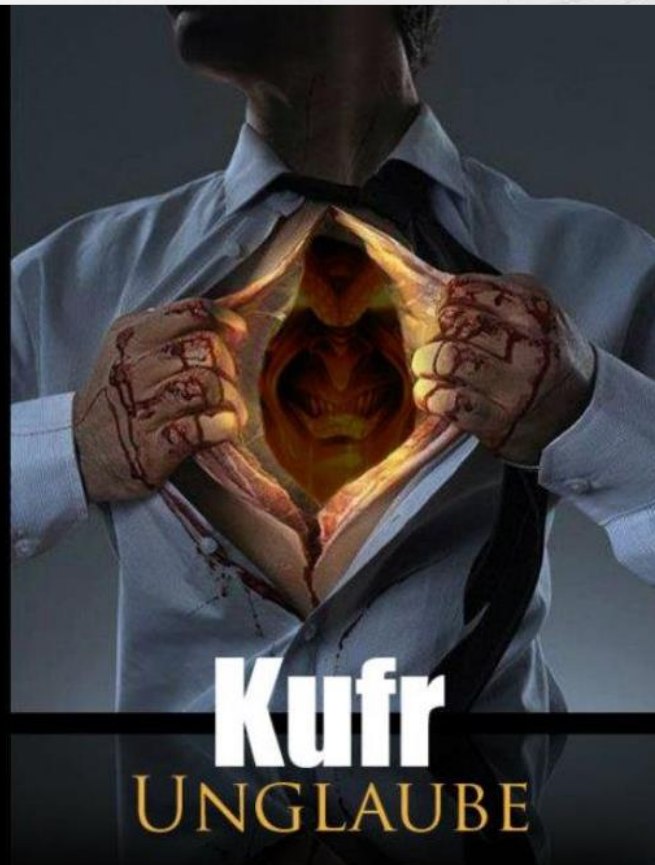

Definition Hate Speech

- Hate speech is intentional or unintentional public discriminatory and/or defamatory statements; intentional incitement to hatred and/or violence and/or segregation based on a person's or a group's real or perceived race, ethnicity, language, nationality, skin colour, religious beliefs or lack thereof, gender, gender identity, sex, sexual orientation, political beliefs, social status, property, birth, age, mental health, disability, disease.

- Does Hate speech always lead to extremism and ultimately terrorism?
 - No, many factors have to come into play
- Or is hate speech just an early warning sign for radicalisation?
 - Can be an indicator, but not necessarily
- How about Jihadi or Islamist groups?
 - Dehumanize and vilify outgroups/enemies
 - Easiest way to elevate oneself is to degrade someone else
